

PRESIDENT OBAMA

"We worked so hard for real change.

Please demand a strong public health insurance option.

Letting the insurance companies win would not be change we can believe in."

"President Obama, I started making calls for you during the South Carolina primary from my recovery bed – after a nearly fatal accident. I couldn't afford health insurance and racked up big bills. I worked for you because I believed you could bring real change on health care. The public option is that change – please don't disappoint me and the millions of people who believed in you."

Lance Orchid, Deputy Field Director (GA)
